(Attach a copy of all invoices and proof of payment to this Application)

3. Flowmeter Location

This property is located in the NW ¼, NE ¼, SW ¼, SE ¼ of Section _____,

Block _____, _____ Survey, _____ County, Texas.

Latitude: _____ Longitude: _____

Place Name: _____ Groundwater Production Unit ID: _____

This property is located _____ miles (N or S) and _____ miles (E or W) of the town of _____, Texas, and contains _____ irrigated and _____ total contiguous acres.

Property Security: OPEN KEY LOCK COMBO _____

If this is a replacement for a meter that failed or is being upgraded, what is the previous meter's serial number: _____

Are there flowmeters on this property other than at the specific location described above? YES NO

Were flowmeters on the property last year? YES NO

4. Cost-Share Amount and Equipment Ownership

- A. The District will provide up to 50% of the purchase cost of the flowmeter, subject to Meter Grant fund availability and owner/operator compliance with Section 5, items A through G.
- B. The District retains no ownership of the flowmeter at any time.

5. Certification

I, the undersigned applicant, agree and certify under penalty of perjury that:

- A. All wells and/or irrigation systems are located within the boundaries of the Mesquite Groundwater Conservation District (District) where this flowmeter is installed.
- B. The landowner/operator grants permission to District personnel and their authorized agents to enter the property to check flowmeter equipment, and to obtain reading data at any time.
- C. The landowner/operator will notify the District immediately whenever a problem or malfunction of the flowmeter is noted and is responsible for maintaining the flowmeter in operable condition through the end of the Grant reporting period. No further grant money will be used to replace the flowmeter during the Grant reporting period.
- D. The flowmeter will not be moved, altered, or modified without express consent of the District.
- E. The Applicant has fully paid for the flowmeter equipment that is the subject of this application PRIOR to requesting cost-share assistance and has provided proof of payment to District.

- F. Proof of Payment clearly indicates, at a minimum, separate line items for the following:
 - a. Flow meter
 - b. Pipe, flanges, fittings
 - c. Labor
- G. The District has not initiated any enforcement action (in writing) against the owner or the operator of the Groundwater Production Unit where this flowmeter is located within the past six months.
- H. The Groundwater Production Unit where this flowmeter is located is in full compliance with the rules of the District.

Applicant (Owner of Agent)

Date

-----**DISTRICT USE ONLY**-----
